Computer Science Department Students and Faculty

The Salem State University Upsilon Pi Epsilon (UPE) Chapter invites you to our Spring 2025 In the Loop event!

Event Details:

Speaker: Greer Viau
Talk Title: The Landscape of Modern AI
Date: Thursday, April 3, 2025
Time: 9:30 AM – 10:30 AM
Location: MH 444

About the Speaker
Greer Viau is a 2020 SSU alumnus. He has worked in various industries, including data engineering, autonomous robotics, and biotech. He is currently a Senior Software Engineer at Matterworks, an AI biotech startup in Boston. Greer experiments with cutting-edge AI technologies in his free time and applies them to real-world problems. He documents his projects on his YouTube channel, providing educational content on machine learning topics.

About the Talk
Greer will share insights into real-world AI challenges and how they differ from academic approaches. This is a fantastic opportunity to learn from an SSU alumnus in industry.

About "In the Loop"
The SSU University Upsilon Pi Epsilon (CS/IT Honor Society) "In the Loop" is an informal speaker series where Computer Science Department alumni and guests share their industry experiences and insights. These talks provide valuable perspectives on career paths, professional growth, and challenges in the computing field.

Light refreshments will be served after the talk.

Thank you to Professor Kaur for organizing and hosting this event in her CSC340 Artificial Intelligence class.

We look forward to seeing you there!
